1	02-12-2020	I think the layout of the gallery could of been made different, its very in your face as you open it. Well done.	Very Good

12	03-12-2020	The images in the Gallery can distort depending on the size of the monitor/window. If you open up a website like Caffe Nero and play about with the window size you'll notice they resize without distorting. Also, if there is not enough room width ways sections like the Student Club seem to dissappear, maybe they should move under/above eachother. It can be difficult to read the "Find Us" section with the reviews auto scrolling which keeps shifting the page up and down. The "Find Us" address font size is smaller than the rest.	Navigation seems good, maybe a prompt that you can click on the drinks/food menus to expand them.	Nothing comes to mind.	Nope. Although sections 2 and 4 of this questionairre are limited to 100 words unlike the others.	Good
13	03-12-2020	None	None	None	None	Very Good
